INTEROFFICE MEMORANDUM

TO: Rich Tullis
FROM: Debbie Vanoy *Debbie*
DATE: February 8, 2003
SUBJECT: Replacement Water Contracts

Before providing this information to Daryl so that he can respond to John Larsen, I wanted to review the information with you. Our records indicate the following status on the contracts in question.

1. Francis Town Corporation 55-8630 (E3114) – This contract was for 50 acre-feet. The contract was terminated via correspondence sent to Mayor Brad McNeil on January 30, 1995. We do have a contract with Woodland South Hills Irrigation Company (which you were thinking may have assumed the Francis Town contract), but it was a new contract for 25 acre-feet and not an assumption contract of this contract.
2. Alan K. & Charlene Matte 55-9040 (E3494) – Mr. Matte sold his property to Victoria Dungan. She was interested in assuming the contract. However, Mr. Matte had moved out of the area and no one knew how to reach him to obtain the necessary written request for the District to allow Ms. Dungan to assume the contract. In order for Ms. Dungan (now Volcik) to continue use of the water under this replacement contract, we terminated Alan Matte's contract on June 10, 1998, and entered into a new contract with Ms. Dungan.
3. Carl & Barbara Dofelmier 55-8062 (E3036) – This contract was terminated per Mr. Dofelmier's request. Mr. Dofelmier and the Timpanogos Irrigation Company filed a change application 55-9265 (a22499) which was approved on April 23, 1999. The application for this change states under the "Hereafter Use" section that "Upon approval of the change application exchange application E3036 is withdrawn."

4. Durward Pressley Jackson 55-8581 (E2263) – This contract was terminated per Mr. Jackson's request.
5. James A. Ludlow 55-9076 (E3537) – This contract was terminated on October 15, 1998.
6. Brett D. Nilson 55-9094 (E3552) – This contract was terminated on October 19, 1998.
7. Donnette M. Staley 55-9203 (E3683) – This contract was terminated on December 11, 1998.
8. David Turley 55-9098 (E3501) – This contract was terminated on December 11, 1998.
9. Edgar C. Goldston, Jr. 55-9133 (E3570) – This contract was terminated on December 20, 1999, per Mr. Goldston's request.

The above contracts that show a date of termination only, were terminated either for non-payment or they had not complied with the contract by providing the District with a copy of their building permit.

Jeff & Ekaterina Rogers 55-8617 (E2916) is a current and valid contract. Mr. and Mrs. Rogers assumed this contract from Wayne Whetman on October 30, 2001. After reviewing the list (on the computer) provided to Stan Roberts last year, I believe their name is shown on the list with a current contract. If Mr. Larsen, from the State Engineer's office, has an older list, then Mr. and Mrs. Rogers contract may very well still be in the name of Wayne Whetman.
